➡ and here below, selected works with quick links when available

Quillen, **Bauchet** et al. (2012) [OPRM1 and EGFR contribute to skin pigmentation differences between Indigenous Americans and Europeans](#), *Human Genetics*

Gunnarsdóttir, Li, **Bauchet** et al. (2011) [High-throughput sequencing of complete human mtDNA genomes from the Philippines](#), *Genome research*

Bigham, **Bauchet** et al. (2010) [Identifying signatures of natural selection in Tibetan and Andean populations using dense genome scan data](#), *Plos Genetics*

**Bauchet**, Tang, López, et al. (2009) [Genetic variation and recent positive selection in worldwide human populations: evidence from nearly 1 million SNPs](#), *PLoS ONE*

**Bauchet** (2009 poster) Worldwide human population structure & recent selection: evidence from ~1m SNPs, *Cold Spring Harbor Symposium: Evolution - The Molecular Landscape*

**Bauchet** (2008) [Human Population Stratification Assessed by Microarray Genotyping](#), *Encyclopedia Library of Science*

**Bauchet** (2008 presentation) [Untangling sub-continental ancestry of African Americans](#), *Genetics and the Trans-Atlantic Slave Trade Working Group, Harvard University*

**Bauchet** et al. (2007) [Measuring Population Stratification in Europe using Microarray Genotype Data](#), *American Journal of Human Genetics*
